motif_clust2 − KEGG
Cell cycle
DNA replication
p53 signaling pathway
Fanconi anemia pathway
Base excision repair
Mismatch repair
Progesterone−mediated oocyte maturation
Oocyte meiosis
Motor proteins
Human T−cell leukemia virus 1 infection
Glycolysis / Gluconeogenesis
Cellular senescence
Nucleotide metabolism
Biosynthesis of amino acids
Pyrimidine metabolism
Carbon metabolism
Homologous recombination
HIF−1 signaling pathway
KEGG root term
Central carbon metabolism in cancer
