H_THAvDMSO − KEGG
Parkinson disease
Oxidative phosphorylation
Prion disease
Huntington disease
Metabolic pathways
Amyotrophic lateral sclerosis
Alzheimer disease
Protein processing in endoplasmic reticulum
KEGG root term
Pathways of neurodegeneration − multiple diseases
Diabetic cardiomyopathy
DNA replication
Chemical carcinogenesis − reactive oxygen species
Cell cycle
Thermogenesis
Non−alcoholic fatty liver disease
Citrate cycle (TCA cycle)
Carbon metabolism
Pyruvate metabolism
Biosynthesis of amino acids
