H_DOXvDMSO − GO:BP
RNA metabolic process
nucleic acid metabolic process
mRNA metabolic process
nucleobase−containing compound metabolic process
RNA biosynthetic process
nucleic acid biosynthetic process
nucleobase−containing compound biosynthetic process
RNA processing
mRNA processing
gene expression
spermatogenesis
RNA splicing
modification−dependent macromolecule catabolic process
male gamete generation
ubiquitin−dependent protein catabolic process
regulation of mRNA metabolic process
modification−dependent protein catabolic process
biosynthetic process
primary metabolic process
macromolecule biosynthetic process
