C_THAvDMSO − GO:BP
oxidative phosphorylation
mitochondrial ATP synthesis coupled electron transport
ATP synthesis coupled electron transport
aerobic respiration
aerobic electron transport chain
respiratory electron transport chain
proton transmembrane transport
proton motive force−driven mitochondrial ATP synthesis
electron transport chain
energy derivation by oxidation of organic compounds
cellular respiration
proton motive force−driven ATP synthesis
generation of precursor metabolites and energy
biological_process
nucleoside phosphate metabolic process
nucleobase−containing small molecule metabolic process
localization
cellular process
monoatomic ion transport
ATP biosynthetic process
