C_LPSvH2O − GO:BP
inflammatory response
immune system process
response to molecule of bacterial origin
immune response
biological process involved in
interspecies interaction between
organisms
response to bacterium
response to other organism
response to lipopolysaccharide
response to interleukin−1
response to external biotic stimulus
leukocyte activation
response to biotic stimulus
leukocyte migration
regulation of immune system process
response to external stimulus
defense response
cell activation
cellular response to lipopolysaccharide
cellular extravasation
cellular response to molecule of
bacterial origin
